Real World Training for Women in Law Enforcement

This training is like no other in that it encourages women, and those who train and supervise them, to look beyond the anecdotal, “that’s-the-way-we’ve-always-done-it” world of learning and utilize science, physiology and proven methods and information that will help anyone in law enforcement improve their career, their survival, and their life. The atmosphere created in the classroom encourages students to network and gain strength and information from each other, making this session a powerful day for all involved. This course will inspire, motivate, and encourage women to excel and to win, regardless of assignment!

Sgt. Betsy Brantner Smith (ret.) is a 29 year police veteran who has been training men & women internationally for over 20 years. She writes for numerous police publications, is an instructor for the Calibre Press “Street Survival” seminar and manages Dave Smith & Associates’ “Winning Mind Seminars.”
